Texas Code of Criminal Procedure Chapter 62, Subchapter I. Early Termination of Certain Persons' Obligation to Register.

Art. 62.402. Determination of Minimum Required Registration Period

- (a) The department by rule shall determine the minimum required registration period under federal law for each reportable conviction or adjudication under this chapter.
- (b) After determining the minimum required registration period for each reportable conviction or adjudication under Subsection (a), the department shall compile and publish a list of reportable convictions or adjudications for which a person must register under this chapter for a period that exceeds the minimum required registration period under federal law.
- (c) To the extent possible, the department shall periodically verify with the United States Department of Justice's Office of Sex Offender Sentencing, Monitoring, Apprehending, Registering, and Tracking or another appropriate federal agency or office the accuracy of the list of reportable convictions or adjudications described by Subsection (b).

Under Art. 62.403(b), a person with a single reportable adjudication or conviction may apply to the Council on Sex Offender Treatment for an individual risk assessment. Therefore, a second reportable offense that makes the Texas registration period longer than the Federal requirement would not be eligible for deregistration because there is no longer just a single reportable offense. [i.e. §§ 20.02, or 21.11(a)(2)]

Art. 62.404 allows a registrant who has requested and received an individual risk assessment to file with the trial court that sentenced the person for the reportable conviction or adjudication a motion for early termination of the person's obligation to register.
